Education

P.R. Pote Patil College of Engineering & Management, Amravati   2021 - Present
Bachelor of Computer Science and Engineering   *Aggregate - 70.27*
Prabodhan Vidyalaya, Daryapur   2020 - 2021
HSC   *Percentage - 89*
Prabodhan Vidyalaya, Daryapur   2018 - 2019
SSC   *Percentage - 66.60*

Projects

TruBroker:
- Developed key features for TruBroker, a real estate platform facilitating property listings, searches, and owner-buyer connections.
- Created responsive, user-friendly interfaces for browsing and managing property details. Implemented secure listing functionality, ensuring smooth property upload and search experiences.
- Integrated contact forms with third-party email services for direct owner-buyer communications.
  Website Link

NextGen Careers Website:
- The NextGen Careers Website is an educational platform designed to cater to the learning needs of first-year and second-year students across various technical domains.
- I made the logic to tell them which technical language they can choose and store the data of their result in the Firebase.
- Also give them the you tube free course as the push according to their domains.

WhatsApp Automation Software:
- I have made the software which can send the same message on WhatsApp on different no at same time.
- We just have to put the numbers with spacing and comma then the paste the message and after login with generated QR Code the message will send within few minutes.

Brain Tumor Prediction:
- By using Python I have trained the model to verify that the man/women have the brain tumor or not according to their XRAY.
- I also have checked the accuracy of the answer given by the code which is up to the 96.6%.
